

STREAMLINE YOUR TOOLBOX TODAY!

It's as easy as 1, 2, 3...

Drill your hole

Your pack of clips will carry instructions on the recommended diameter of drill bit required for your chosen clip.

Slide the clip over the cable

When sliding the clip over the cable, ensure that it is seated into the rounded area.

Compress the Clip & insert into the hole

The clips can be easily compressed by hand. Squeeze the clip legs and simply insert it into the hole.

Use LINIAN Fireclips, Superclips and T & E Clips for faster, safer, simpler cable installations.
